DESIGN PRINCIPLE

This is a **first-time teaching** session covering **TWO topics** — the middle ground between the single-topic 15-minute compression and the full two-topic 45-minute master. Both topics keep their own overview-teach-splitscreen-Q&A; arc; only the depth per component is compressed (roughly to 60–72% of the 45-minute timings), never the sequence or the pedagogical components themselves.

WHY DUAL-TOPIC WORKS AT 30 MINUTES (UNLIKE AT 15)

At 15 minutes, splitting into two topics would starve each of core-teaching time below the threshold for genuine first-time comprehension — so the 15-minute format stays single-topic. At 30 minutes there is enough runway (~13 minutes per topic) to preserve full diagram-building and full split-screen construction for both topics, while still tightening broader-picture and mind-map to a single combined closing block rather than two separate ones.

THE 30-MINUTE STRUCTURE — AT A GLANCE

"HIE COMPRESSED DUAL-TOPIC PROTOCOL" — 10 SLIDES

1	Overview of Topic What we're learning today (both topics) and why it matters — brief, intent-first framing.		01:30
2	Session Contents Map of both topics and how they connect — the two-part journey ahead.		01:30
3	Topic I — Visual Display, Diagrams & Multilingual Emphasis Full diagram build, gold-highlighted keywords, Hinglish/multilingual hooks for Topic I.	TOPIC I	05:00
4	Split-Screen — Technical vs Relatable Reference (Topic I) LEFT: technical explanation. RIGHT: movie/cricket/daily-life reference. Fresh build.	TOPIC I	03:30
5	Q&A; — Penta-Intelligence Mapping (Topic I) Live scoring against IQ, EQ, Critical Thinking & Research Skills for Topic I.	TOPIC I	02:00
6	Topic II — Visual Display, Diagrams & Multilingual Emphasis Full diagram build, gold-highlighted keywords, Hinglish/multilingual hooks for Topic II.	TOPIC II	05:00
7	Split-Screen — Technical vs Relatable Reference (Topic II) Same split-screen construction discipline applied fresh to Topic II.	TOPIC II	03:30
8	Q&A; — Penta-Intelligence Mapping (Topic II) Second live scoring round against IQ, EQ, Critical Thinking & Research Skills.	TOPIC II	02:00
9	Broader Picture — Significance & Industry Relevance Combined significance for both topics with real-world/industry-news examples.		02:30
10	Mind-Map Revision & Keyword Recap Unified mind-map covering both topics' technical content, relatable examples & keywords.		03:30
TOTAL SESSION			30:00

SLIDE-BY-SLIDE TIMING — ORIGINAL vs COMPRESSED

Component	45-Min Original	30-Min Compressed	Compression
Overview + Contents	5.5 min	3.0 min	~55%
Topic I — Teaching	7.0 min	5.0 min	~71%
Topic I — Split-Screen	5.0 min	3.5 min	~70%
Topic I — Q&A	2.5 min	2.0 min	~80%
Topic II — Teaching	7.0 min	5.0 min	~71%
Topic II — Split-Screen	5.0 min	3.5 min	~70%
Topic II — Q&A	2.5 min	2.0 min	~80%
Broader Picture	5.0 min	2.5 min	~50%
Mind-Map Revision	5.5 min	3.5 min	~64%

Highest compression on **Broader Picture** (~50%) — contextual, not core-comprehension content. Lightest compression on **Topic Teaching** (~71%) and **Split-Screen** (~70%) — the two components where first-time understanding is actually built.

BINDING RULES CARRIED OVER UNCHANGED

- **Split-screen mandate** (Slides 4 & 7): LEFT technical, RIGHT relatable — mandatory, freshly built for EACH topic.
- **40/60 simplification ratio** within teaching + split-screen slides — 40% relatable, 60% core technical.
- **Penta-Intelligence tagging** — IQ, EQ, SQ, Critical Thinking & Research Skills live on every Q&A; response, both rounds.
- **16:9 visual ratio**, diagram + font-emphasis mandate across all 10 slides.
- **Hinglish / multilingual hooks** required in Slides 3, 4, 6 and 7 (both topics).
- **Transcript protocol** — slide numbers declared aloud with pauses; opens with the learner's own onboarding answers.

WHAT'S GENUINELY DIFFERENT FROM THE 45-MINUTE VERSION

- ① Both topics fully retained — no topic is dropped, unlike the 15-minute format.
- ② Every per-topic component compressed to 70–80% of original time — proportionate, not uneven.
- ③ Broader picture and mind-map become ONE combined closing block covering both topics, rather than each topic getting its own separate wrap.

SAMPLE TRANSCRIPT — SLIDE-SWITCH PROTOCOL (DUAL-TOPIC)

Tutor voice, first-person, spoken aloud during the session

OPEN	Namaste! Aaj hum do topics cover karenge — [Topic I] aur [Topic II]. Aapne apne onboarding mein bataya tha your goal is [Q21 answer]. Chalo shuru karte hain.
→ SLIDE 1-2	...pause... Slides 1 and 2 — quick overview and today's map. Do topics, ek journey.
→ SLIDE 3	...pause... Slide 3 — Topic I, the main event. Dekho the diagram. GOLD words — inhe yaad rakhna hai.
→ SLIDE 4	...pause... Slide 4 — screen splits for Topic II! Left: real technical thing. Right: [movie/cricket reference matched to humour profile].
→ SLIDE 5	...pause... Slide 5 — quick round on Topic I. Scoring your IQ, EQ, CTQ, RRQ live.
→ SLIDE 6	...pause... Slide 6 — Topic II shuru. Fresh diagram, fresh keywords, same energy.
→ SLIDE 7	...pause... Slide 7 — screen splits again, ab Topic II ke liye. Left-right, same rule.
→ SLIDE 8	...pause... Slide 8 — second round of Q&A.; Topic II, scoring continues.
→ SLIDE 9	...pause... Slide 9 — zoom out. Why do BOTH topics matter this week? Real-world context, together.
→ SLIDE 10	...pause... Slide 10 — final mind-map, dono topics ek saath. Keywords bolo mere saath — chalo!

ROUTING — HOW THE ONBOARDING FORMS FEED EACH SLIDE

Slide	Fed By	Personalisation Applied
1, 2	4.1 Q1, Q21 · 4.3 Q43	Dual-topic goal hook; both named doubts framed as the session's purpose
3, 6	4.1 Q2–Q4, Q6–Q7	Difficulty weighting; language channel; mother-tongue/Hinglish hooks per topic
4, 7	4.1 Q9–Q11	Humour profile drives the relatable reference chosen for each topic
5, 8	4.1 Q16–Q20	Psychometric-calibrated Q&A difficulty matched to learner's HIQ baseline, both rounds
9	4.1 Q15, Q25 · 4.2 Q36	Career-goal significance and industry-news relevance for both topics combined
10	4.3 Q44	Combined mind-map checks both topics' stated outcomes were achieved

This format is one of three adaptive session lengths in the HIE AI Tutor's Scheduler agent (15 / 30 / 45 minutes), auto-selected from Section 4.1 Q14 (available daily time) and Section 4.3 Q41 (desired depth & duration). All three preserve full pedagogical integrity — only scope and pacing change.
